

RAINBOW SKITTLES

SCIENCE FUN!

What You Will Need

- 1 packet of Skittles (it also works with M & M's and Jelly Beans)
- small jug of warm water
- white plate

- Arrange the Skittles around the edge of the plate in a coloured pattern
- Pour enough warm water into the centre of the plate so that it reaches the Skittles
- Wait and watch as the rainbow appears and spreads toward the centre of the plate

It's as easy as:
